

# AFTERCARE ADVICE

Looking after your *Waxperts Waxing*

It is perfectly normal to experience a reaction on the skin for several hours after a waxing treatment. This can vary from redness to a much stronger reaction such as red dots on waxed area. Providing you follow the aftercare advice below the skin should return to normal within 24-48 hours. If reactions persist or you have any questions, please do not hesitate to contact us. It is imperative that you follow the guidelines below for the best possible treatment results.

## IT'S IMPORTANT TO...

- Avoid excessive heat like hot showers/baths for 24 hours.
- No Jacuzzis, steam rooms or saunas for 24 hours as pores are open and infection can be picked up.
- Avoid excessive perspiration for 2 hours e.g. gym, swimming or exercise.
- No tanning - sun beds/sun exposure for 24 hours.
- Avoid false tan, perfumed products, moisturisers, make-up and deodorants for 24-48 hours.
- Try to avoid underwear and tight clothing for 24 hours when intimately waxed as this can aggravate the area.
- Do not shave or epilate in between waxing appointments.

## IT'S BEST TO...

- Exfoliate the waxed area 2-3 times a week.
- Return every 4-6 weeks for long term improvements (initially every 4 weeks for the first 4 appointments). You may notice a small amount of re-growth after a week or so. It can take up to 4 treatments for your hair to get on a growth cycle that gives best results.
- Use *Waxperts Wonder Pads* daily to keep skin smooth and stay in-grown hair free. Available to purchase at Duchess Lounge for just £9.95 (40 pads).
- Tell everyone about your wonderful Waxperts waxing from Duchess Lounge!

## PLEASE NOTE at this salon we **DO NOT** double dip!

This means a new wooden spatula is used for every dip into the wax, therefore there is no risk of cross-infection from re-dipping a spatula into the same wax. *Never allow a therapist to double dip!*
